

SUSTAINABLE LIVING IN PRIVATE ACCOMODATION

Give it don't bin it - give your unwanted items to charity

Turn lights out when you're not in a room

Cold? Wear an extra layer of clothing around the house

Recycling made Easy - Work together and take it in turns to takeout the rubbish and recycling. Make a recycling rota to help do this.... Simple as that!

Wash your clothes at lower temperature - if you wash your clothes at 30°C you'll notice a saving in your bills.

Fancy a windowsill garden? Fresh herbs make a tasty addition to any meal.

You can recycle all of your food waste in the small brown bins provided in your kitchen.

Use the microwave instead of the oven where possible or cook your meals together in the oven
